

1. Wet the hair and scalp with warm water

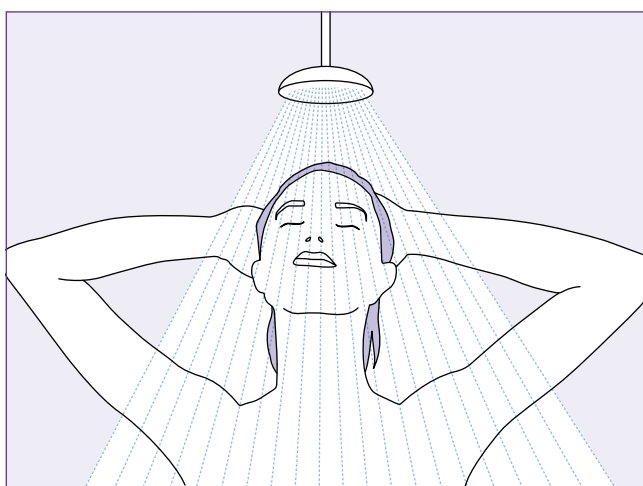

2. Apply Dermax Therapeutic Shampoo -

3. - to the hair and scalp and massage thoroughly with the finger tips.

4. Remove the excess lather from the hair with your hands,-

5. - and then rinse with warm water.

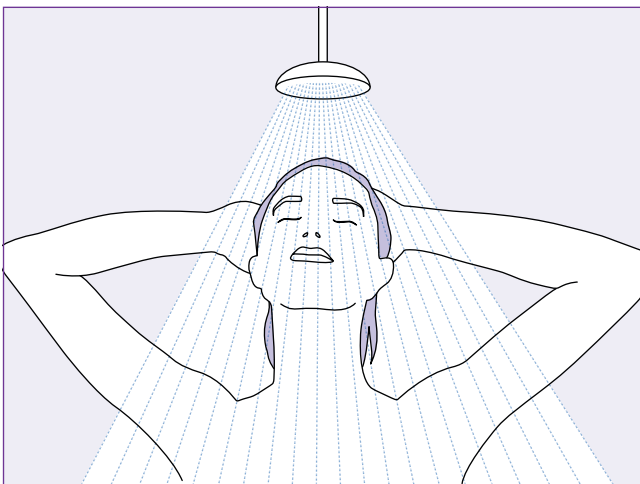

6. Repeat the application-

7. - and massage to produce a rich lather.

8. Remove as much lather as possible with the hands. Removing the foam is important as the lather holds the dirt and the dead scale (which has now been lifted from the scalp). If you rinse without removing the foam, the dead scale would fall back onto the scalp and white debris will be seen once the hair is dry.

9. Finally rinse thoroughly, preferably under warm running water.
